Professional Summary

Android Application Developer with 3+ years of experience in designing and developing scalable enterprise and consumer mobile applications. Proficient in Kotlin and Java with strong expertise in modern Android development frameworks including Android Jetpack. Experienced in Google Play Store deployment, biometric SDK integrations, and application performance optimization. Adept at implementing MVVM and Clean Architecture to build maintainable, high-quality applications. Proven ability to deliver reliable solutions in fast-paced development environments.

Core Competencies

- Android Application Development | Dependency Injection (Hilt) | Room Database | Kotlin, Java
 - MVVM Architecture | Clean Architecture | RESTful APIs | Unit & UI Testing | Agile Methodologies
 - Multiple hardware SDK integrations (biometric, printers, scanners)
-

Professional Experience

Android Application Developer

Autocratic Technosoft Pvt. Ltd. | Aligarh, India

Sep 2022 – Present

- Developed and maintained 3+ Android applications using Kotlin, Java, and MVVM architecture.
 - Integrated REST APIs and Firebase services to support real-time data synchronization for enterprise users.
 - Implemented hardware SDK integrations including fingerprint, iris, QR scanner, and printer devices.
 - Optimized API calls and database queries, reducing app load time and crashes by approximately 30%.
 - Implemented secure data handling using encryption and secure network communication.
 - Collaborated with backend developers, UI designers, and QA teams to deliver stable and scalable applications.
 - Applications used by enterprise users in real-world production environments.
 - Integrated Firebase for authentication, database management, and cloud messaging.
 - Used Git for version control, participating in code reviews through pull requests.
 - Successfully published and maintained apps on Google Play Store for enterprise users.
-

Technical Skills

- **Programming Languages:** Kotlin, Java
- **Frameworks and Libraries:** Jetpack, Coroutines, Flows in Kotlin, Room Database, Retrofit, Dependency Injection (Hilt/Dagger), CameraX, RxJava, RxKotlin, Android SDK, Google Maps
- **Tools and Platforms:** Android Studio, Git, Firebase, Gradle, Postman, CI/CD, Play Store Deployment
- **SDK Implementations:** SecuGen SDK, Fingerprint Scanner, Thumb Scanner, Iris Scanner, Eye Scanner, AICamera SDK, Thermal Printer SDK (Bluetooth & Network), Label Printer SDK, Cash Drawer SDK, QR Code Scanner,
- **Design Patterns:** MVVM, MVI, MVP, MVC, Clean Architecture
- **Databases:** SQLite, Room, MySQL

Soft Skills

- **Problem-Solving:** Efficient in diagnosing and resolving technical issues.
- **Communication:** Clear articulation of complex concepts to technical and non-technical stakeholders.
- **Teamwork:** Strong collaboration in cross-functional teams.
- **Adaptability:** Quick learner of new technologies and frameworks.
- **Time Management:** Skilled in prioritizing tasks and meeting deadlines.
- **Attention to Detail:** Ensures high-quality, error-free code.
- **Creativity:** Innovative solutions to enhance user experience and app performance.

Project

Maxfort Employee App

Play Store: https://play.google.com/store/apps/details?id=com.atpl.Maxfort_Employee

- Developed an employee leave management application with QR-based gate pass and admin approval workflow.
- Implemented Firebase authentication and real-time data synchronization.
- Used MVVM architecture to ensure scalable and maintainable code.

Ronak Scientific App

Play Store: <https://play.google.com/store/apps/details?id=com.atpl.ronakscientific>

Developed a user data management application with login, registration, and admin authorization features. Implemented secure multi-step workflows for user onboarding and data processing.

DailyExpense App

Play Store: <https://play.google.com/store/apps/details?id=com.susoft.dailytaskupdate>

Developed a daily expense tracking application with credit and debit management.

Implemented PDF generation and printing functionality.

Used Room Database for offline-first data storage.

Education

Master of Computer Applications (MCA)

Sanskriti University (2021) | Mathura, India — 2021 – 2022

Bachelor of Computer Applications (BCA)

Bon Maharaj Institutions (2019) | Mathura, India — 2019 – 2021
